

New Source Review newspaper advertisements for construction permit applications, May 31, 2007. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: May 29, May 30, or May 31, 2007, or June 8, 2007. Public notices are generally published every two weeks. The previous publication of public notices was May 17, 2007.

### PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Custom Care Cleaners with a mailing address of 616 Condry Lane, Maryville, TN 37803. They seek to obtain an air contaminant permit (Division identification number: 05-0202-01/60945) for a Dry Cleaning Operation located at the same address. This existing operation consists of one (1) dry-to-dry perchloroethylene dry cleaning machine. A refrigerated condenser and non-vented carbon adsorber are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. O. Jacobsen is the assigned Division person.

For the Blount County "Maryville Daily Times"– published once on or before Thursday, May 31, 2007

---

The applicant is Southern Concrete Products, Inc. with a mailing address of 200 Pierce Road, Oakland, TN 38060. They seek to obtain an air contaminant permit (Division identification number: 24-0097-01/60781) for construction of a Concrete Batch Plant at 215 Pierce Road, Oakland, TN 38060. This proposed operation would consist of gravel, crushed rock and sand stockpiles, a cement silo, a mixer, and associated equipment used to produce ready-mix concrete. A baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Abbas Yavari is the assigned Division person.

For the Fayette County "Fayette Falcon"– published once on or before Thursday, May 31, 2007

---

The applicant is AOC, L.L.C. with a mailing address of 860 Highway 57 East, Collierville, TN 38017. They seek to obtain an air contaminant permit (Division identification number: 24-0024-10/60844) to replace an existing Boiler with a new 250 horsepower Natural Gas Fired Boiler located at the same address. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Abbas Yavari is the assigned Division person.

For the Fayette County "Fayette Falcon" – published once on or before Thursday, May 31, 2007

---

The applicant is Nissan North America, Inc.- Decherd Powertrain Assembly Plant with a mailing address of 983 Nissan Drive, Smyrna, TN 37167. They seek to obtain an air contaminant permit (Division identification number 26-0091-11/60101) to modify an Engine Testing Operation located at Warren Chapel Road, Decherd, TN 37324. The proposed modification is to add an aluminum die cast operation consisting of two primary processes, die casting and chip reclaim support, both with an electric fired melting furnace and numerous insignificant other activities. There would be physical construction. A wet scrubber would be used for pollution control. Regulated air contaminants emitted from this source would increase. Ms. Angela Pitcock is the assigned Division person.

For the Franklin County "Herald-Chronicle" – published once on or before Thursday, May 31, 2007

---

The applicant is Twin City Clarage, Inc. with a mailing address of 101 Sunrise Ridge Road South, Brookings, SD 57006. They seek to obtain an air contaminant permit (Division identification number: 28-0098-02/60948) for construction of an abrasive blasting booth at 202 Commerce Way, Pulaski, TN 38478. This proposed operation would consist of a blasting booth and a portable blast vessel. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the Giles County "Pulaski Citizen" – published once on or before Thursday, May 31, 2007

---

The applicant is Two-Way Gin Company, Inc. with a mailing address of 333 S. Washington, Brownsville, TN 38012. They seek to obtain an air contaminant permit (Division identification number: 38-0032-01/60912) for modification of a Cotton Gin located at the same address. This existing operation consists of gin stands, lint cleaners, and associated equipment used to de-seed cotton. Cyclones and mesh screen are used for pollution control. The requested modification is for the increase the permitted annual bales of cotton processed. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. J. Fuss is the assigned Division person.

For the Haywood County "States Graphic" – published once on or before Thursday, May 31, 2007

---

The applicant is East Tennessee Precast with a mailing address of 3700 Industrial Park Dr., Lenoir City, TN 37771. They seek to obtain air contaminant permits for a Concrete Batch Plant located at the same address, as follows:

- (1) Precast Concrete Batching Operation (Division Identification number 53-0159-01/60911). This existing operation consists of a concrete batch plant, silos, and associated equipment used to produce concrete ready mix to manufacture pre-cast manholes. A baghouse is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. O. D. Jacobsen is the assigned Division person.
- (2) Surface Coating Operation (Division Identification number 53-0159-02/60963). This existing operation consists of hand spray application of form release to pre-cast forms used in the manufacture of concrete manholes and manways. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. O. D. Jacobsen is the assigned Division person.

For the Loudon County “News Herald” – published once on or before Thursday, May 31, 2007

---

The applicant is Dynasty Spas, Incorporated with a mailing address of 101 Dynasty Way, Athens, TN 37303. They seek to obtain an air contaminant permit (Division identification number: 54-0176-01/59045) for modification of a Surface Coating Operation located on 101 Dynasty Way, Athens, TN 37303. This existing operation consists of fiberglass reinforced plastic manufacturing, spray booths and associated equipment used to produce laminated spa shells. Exhaust filters are used for pollution control. The requested modification is to increase usage of acetone and 1,1-dichloro 1-fluoroethane. There would be no physical construction. Air contaminants emitted by this source would increase. Mr. R. Benjamin is the assigned Division person.

For the McMinn County “Daily Post-Athenian” – published once on or before Thursday, May 31, 2007

---

The applicant is Lambcon, Inc – Madisonville Division with a mailing address of P. O. Box 5148, Cleveland, TN 37320-5148. They seek to obtain an air contaminant permit (Division identification number: 62-0129-01/60955) for construction of a Concrete Batch Plant at 179 Campground Road, Madisonville, TN 37354. This proposed operation would consist of a concrete batch plant, silos, and associated equipment used to produce concrete ready mix. A baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. O. D. Jacobsen is the assigned Division person.

For the Monroe County “Monroe County Advocate” – published once on or before Thursday, May 31, 2007

---

The applicant is Gateway Cleaners with a mailing address of 226 N Kentucky Street, Kingston, TN 37763. They seek to obtain an air contaminant permit (Division identification number: 73-0162-01/60943) for a Dry Cleaning Operation located at 200 North Gateway Ave, Rockwood, TN 37854. This existing operation consists of one (1) dry-to-dry perchloroethylene dry cleaning machine. A refrigerated condenser and non-vented carbon adsorber are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. O. Jacobsen is the assigned Division person.

For the Roane County “Roane County News” – published once on or before Thursday, May 31, 2007

---

The applicant is Standard Register Company with a mailing address of P.O. Box 839, Murfreesboro, TN 37133. They seek to obtain an air contaminant permit (Division identification number: 75-0149-14/60950) for modification of a Printing Press Operation at 325 Butler Drive, Murfreesboro, TN 37127. This existing operation consists of three printing presses and associated equipment used to print ink on bond and carbonless paper. The requested modification is to add one additional printing press. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Reynolds is the assigned Division person.

For the Rutherford County “Daily News Journal” – published once on or before Thursday, May 31, 2007

---

The applicant is Doane Pet Care Company with a mailing address of P.O. Box 2487, Brentwood, TN 38201. They seek to obtain air contaminant permits (Division identification numbers: 92-0113-01/60763) for placement of a natural gas fired Boiler with propane gas (LPG) as back up fuel located on 399 Euclid Avenue, McKenzie, TN 38201. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Mr. Jim A. Attar is the assigned Division person.

For the Weakley County “Weakley County Press” – published once on or before Thursday, May 31, 2007

---

The applicant is Blalock Lumber Company with a mailing address of P. O. Box 4750, Sevierville, TN 37864. They seek to obtain an air contaminant permit (Division identification number: 78-0201-01/60903) for construction of a Concrete Batch Plant at 1624 Sugar Hollow Road, Pigeon Forge, TN 37863. This proposed operation would consist of a concrete batch plant, silos, and associated equipment used to produce concrete ready mix. A baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. O. D. Jacobsen is the assigned Division person.

For the Sevier County “Mountain Press” – published once on or before Friday, June 8, 2007
